5. Summary of significant accounting policies

5.1 Basis of preparation

6. These financial statements are prepared and presented under the historical cost convention on the accrual basis of accounting and in accordance with the Accounting Standards ('AS') prescribed in the Companies (Accounting Standards) Rules, 2006 which continue to apply under Section 133 of the Companies Act, 2013, ('the Act') read with Rule 7 of the Companies (Accounts) Rules, 2014 and other relevant provisions of the Companies Act, 1956, to the extent applicable. The financial statements are presented in Indian Rupees except where mentioned otherwise.

6.1 Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles ('GAAP') in India requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosures of contingent liabilities on the date of the financial statements and the reported amount of income and expenses during the reported period. Management believes that the estimates made in the preparation of financial statements are prudent and reasonable. Actual results could differ from those estimates. Any revision to accounting estimates is recognised prospectively in current and future periods.

6.2 Earnings per share

In determining earning per share, the Company considers the net result after tax and includes the post tax effect of any extraordinary / exceptional item. The number of shares used in computing basic earning per share is the weighted average number of shares outstanding during the year. The number of shares used in computing diluted earning per share comprises the weighted average shares considered for deriving basic earnings per share and also the weighted average number of shares that could have been issued on the conversion of all dilutive potential equity shares unless the results would be anti - dilutive. Dilutive potential equity shares are deemed converted as of the beginning of the year, unless issued at a later date.

6.3 Taxation

Reliance MediaWorks Creative Services Limited

Notes to the financial statements (continued)

For the year ended March 31, 2015

(Currency: Indian rupees)

Income-tax expense comprises current tax expense computed in accordance with the relevant provisions of the Income tax Act, 1961 and deferred tax charge or credit.

Current tax provision is made based on the tax liability computed after considering tax allowances and exemptions, in accordance with the Income tax Act, 1961. Deferred tax charge or credit and the corresponding deferred tax liability or asset is recognised for timing differences between the profits / losses offered for income taxes and profits / losses as per the financial statements. Deferred tax assets and liabilities are measured using the tax rates and tax laws that have been enacted or substantively enacted at the balance sheet date.

Deferred tax assets are recognised only to the extent there is reasonable certainty that the assets can be realised in future. However, where there is unabsorbed depreciation or carried forward loss under taxation laws, deferred tax assets are recognised only if there is a virtual certainty of realisation of such assets. Deferred tax assets are reviewed as at each balance sheet date and written down / up to reflect the amount that is reasonably / virtually certain (as the case may be) to be realised.

6.4 Provisions and contingencies

Provisions comprise liabilities of uncertain timing or amount. Provisions are recognised when the Company recognises it has a present obligation as a result of past events, it is more likely than not that an outflow of resources will be required to settle the obligation and the amount can be reasonably estimated.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Loss contingencies arising from claims, litigation, assessment, fines, penalties, etc. are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated.
